

# FLOOR TREATMENT

Base crystallizer for sealing and polishing

## Description:

Product made on the basis of mineral acids, for the preparing of crystallization, providing a better adherence and duration. Cleans thoroughly and covers the pores.

## Key Properties :

Cleans, seals and protects, making easier the subsequent crystallization of marbles, terrazzo, mosaics... with a rotating machine and steel wool.

## Use Instructions :

Make a first cleaning of the surface to be treated with THOMIL FLOOR STRIPPER, for the removal of dirtiness and any other wax or crystallizing rests that were before. Dry.

The floor being completely neutralized, pulverize the product on small areas ( $\pm 2m$ ).

Use the rotating machine with steel wool until getting the desired cleaning, sealing and brightness.

## Pictograms of use:

## Packaging:

**TSTV006:** 4 l. Container – 4 units

## Technical Data:

\* PROPERTIES: Acid solution of crystallizing and sealing elements that provides crystallization a better adherence and duration. Contains high resistance mineral acids.

\* SPECIFICATIONS:

Appearance: Liquid

Colour: blue

Odour: Characteristic scented

Density (20°) : 1.120 – 1.140 Gr/cc.

PH (20°): Approx. 3 paper test strip.

Solubility: totally in water

Active Material: 17-1919% de Fluorosilicate

\* COMPOSITION: Magnesium Fluorosilicate and phosphoric acid.

## Signage Pictograms:

Company certified by BVQI:

BUREAU VERITAS  
Certification

SURFACTANTS BIODEGRADABLE  $\geq 90\%$   
ACC.TO: **Regulation 648/2004/CE**

## Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

## Security and Handling:

DANGER. Contains: Magnesium hexafluorosilicate. Toxic if swallowed. Causes severe skin burns and eye damage. Do not get in eyes, on skin, or on clothing. Wear protective gloves. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Rinse mouth. Store locked up. EXCLUSIVELY SOLD TO PROFESSIONALS.

## Warnings:

Due to its high acidity, it has to be handled with care, avoiding splashing on skin or eyes, as well as long time exposures. In case of extended exposures, it can produce FLUOROSIS, causing possibly HYPOCALCEMIA. In case of accidental ingestion, please contact the National Toxicology Service.

Our TECHNICAL DEPARTMENT will attend any doubts or questions you have about products or applications without obligation.
