**Regulation 648/2004/CE**

## Description:

High effectiveness, suitable for the deep cleaning of medium and large textile areas. Fast dry and controlled foam. High anti-stain power. Protects and revives colours, delaying the appearance of dirt.

## Key Properties:

Detergent, especially developed for the powerful cleaning of moquettes and other textile coatings, by means of the injection-extraction system. Low-foam formula.

## Use Instructions:

Vacuum the whole surface. Dilute the product between 5% to 10% into the machine deposit, depending on the dirt level. Pulverize the product and then vacuum, always with the machine. A stability test is first recommended on a hidden area.

## Technical Data:

### \* PROPERTIES:

Deep cleaning, protection and colour revival of medium and large textile areas, by means of the injection-extraction system.

### \* SPECIFICATIONS:

Appearance: Liquid

Colour: slightly amber

Odour: Characteristic

Density (20°) : 1.020 – 1.040 Gr/cc

PH (20°): 13 +/- 0.5

\* COMPOSITION: Surfactants. Sequestering agents. Solvents. Non-organic salts.

## Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

## Security and Handling:

Causes serious eye irritation. Wash your hands thoroughly after handling. Wear protective gloves/eye protection. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Get medical advice/attention. FOR PROFESSIONAL USE.

## Warnings:

In case of accidental ingestion, please contact the National Toxicology Service.
