ENVIRONMENTAL MANAGEMENT

SURFACTANTS BIODEGRADABLE $\geq 90\%$ ACC.TO:
Regulation 648/2004/CE

Description:

Product made on the basis of surfactants and amines for floor stripping of successive wax applications. Due to its composition and alkali character, it acts not only as a stripper, but as a powerful cleaner with degreasing action.

Key Properties:

Product, especially conceived for the removal of old layers of wax, before coating the floor with a new treatment.

Use Instructions:

Dilute 1 l of product per each 10 l of water.

Apply the mixture to the floor with a mop and leave it for a few minutes. Rinse thoroughly with clean water until the removal of foam and wax rests. It is recommended to do it on small surfaces (2 to 4 m²).

It can also be done with a rotating machine, using abrasive discs (brown or black); this way, the process will be shorter and more effective.

Technical Data:

* PROPERTIES:

High concentration. High cleaning power. Minimum stripping time. The ammonia and amines contained break the structure of the polymer down, breaking up the wax layer and removing it with the surfactants.

* SPECIFICATIONS:

Appearance: Light liquid

Colour: Clear

Odour: Characteristic

Density: 1.010 +/- 0.005 Gr/cc.

PH (10°): 11.0 +/- 0.5

Dry Residue: 4-5

* COMPOSITION: Non-ionic surfactants. Glycols. Moisturizers. Amines and ammonia.

Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

Security and Handling:

DANGER. Contains: 2-aminoethanol, Potassium hydroxide, disodium metasilicate. Causes severe skin burns and eye damage. May cause respiratory irritation. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER/doctor. Dispose of contents /container in accordance with local /regional /national /international regulations on hazardous waste or packaging and packaging waste respectively. FOR PROFESSIONAL USE.

Warnings:

In case of accidental ingestion, please contact the National Toxicology Service.
